## Work Experience

**SoftConstruct**, on **Hoory** project we were working on a AI based intelligent chatbox. This is my first Team Lead experience on a 8 members team. We were using React.js, redux.js, metarepos, k8s GCE, gRPC, and lots of edge technology. (Jan. 2021 - Jul. 2022)

**SnappMarket**, a Front-end engineer, make a new structure and standard to develop front-end apps in our company. also, build a new website with react.js and SSR. (Sep. 2019 - Jan. 2021)

**TorfehNegar**, Web chapter lead, we had daily challenges with large scale apps made in this company, Holoo is a well-known accounting app in Iran and we were building a web version of this app with zf2. Also, we made internal projects with nodejs MongoDB, and react.js. (Sep. 2017 - Jan. 2019)

**IdeaPardazaneHamrah**, Founder, it was my own company to work on my startups, including Jurchin and Citygram projects. Also, we work on freelance projects. (Apr. 2016 - Aug. 2019)

**Freelance**, Graphic design, Template Develop and simple back-end projects (Apr. 2011 - May. 2016)

### A little bit more about me

Personally, I am a persistent, creative, happy and a little hurried person who is always motivated to learn new things, I like helping people, I like swimming in sports and I like things that help alleviate poverty...

If it is possible do not print my resume file
